Sigenergy SigenStor

AI-optimized modular five-in-one energy system

BATTERY MODULES	BATTERY CHEMISTRY	ENCLOSURE
6.02 / 9.04 kWh	**LiFePO4**	**NEMA 4X**

Key Features

- ✓ Solar inverter, battery PCS, storage and energy management
- ✓ Modular and stackable design
- ✓ Smart monitoring through the mySigen platform

Planning Your Project

Southwest Energy helps homeowners compare equipment, coordinate manufacturer-certified local installation, and manage applicable permit and utility interconnection applications. Final system design, compatibility, pricing and availability are confirmed for each project.
