Canadian Solar BiHiKu CS3W Series

Bifacial mono PERC solar module

FRONT OUTPUT	REAR GAIN	DESIGN
430-455 W	**Up to 30%**	**Bifacial**

Key Features

- ✓ Captures energy from front and rear surfaces
- ✓ Rear-side gain depends on site conditions
- ✓ Suitable for high-output solar arrays

Planning Your Project

Southwest Energy helps homeowners compare equipment, coordinate manufacturer-certified local installation, and manage applicable permit and utility interconnection applications. Final system design, compatibility, pricing and availability are confirmed for each project.
