Renogy RSP550D

High-output monocrystalline solar module

RATED OUTPUT	EFFICIENCY	CELL TECHNOLOGY
550 W	**21.3%**	**PERC mono**

Key Features

- ✓ For residential, commercial and off-grid arrays
- ✓ High-power module format
- ✓ Final design subject to site and electrical review

Planning Your Project

Southwest Energy helps homeowners compare equipment, coordinate manufacturer-certified local installation, and manage applicable permit and utility interconnection applications. Final system design, compatibility, pricing and availability are confirmed for each project.
